INTRODUCTION

The **STATISTICS OF OHIO LIBRARIES** is compiled from information supplied by academic, institution, public and special libraries in Ohio through questionnaires originated by the State Library of Ohio during 1989.

The publication includes data from all types of libraries as well as Rankings of public and academic libraries. The Rankings format has been changed for 1990. The ranked categories have been combined into one section and now list where the corresponding library ranks within each category in relation with the total number of reporting libraries.

The public library statistics are reported for calendar year 1989. Distribution of the Library and Local Government Support Fund data was reported to the Auditor of State by the county auditor's offices and forwarded to the State Library where it was compared with the information received from the public libraries.

Statistics on school library media centers (for school year 1988-1989) were collected by the Ohio State Department of Education's Ohio Educational Data Systems School Building Survey (OCCD-7L). These statistics were compiled by the Department of Education's Division of Computer Services and Statistical Reports and forwarded to the State Library.

Arrangement of information is generally self-explanatory; footnotes have been used as needed. A dot leader (...) or an N/R in a data column indicates a non-response. In addition a glossary is provided in the last section of the publication.

Thanks are expressed to librarians, clerk-treasurers, auditors, school superintendents and others who have supplied data for the **STATISTICS OF OHIO LIBRARIES.**

Your comments, notes of ommissions and errors are invited. Please call 1-800-686-1532.
